Welcome to our clinic, we have a professional staff of specialized pain management physicians who work closely with our midlevel providers (physician assistants and nurse practitioners). This will allow our patients to have a quick access to our team. Various providers are commonly involved in the care of our patients to implement and execute each patient's care plan.

Enclosed you will find the appointment day and time we scheduled for you to be evaluated by one of our Pain Management Specialists. If this day and time does not work out, please give our office a call.

We are sending you the Insurance Information and the Pain Questionnaire forms to fill out before your first clinic visit. Please prepare a list of your current medications, allergies, and past surgical history.

***** COPAYS ARE DUE AT TIME OF SERVICE *****

If you are on Workman's Compensation, please bring your claim number, name, & address of your case worker, as well as a phone and fax number where your case worker can be contacted.

A consultation appointment is your initial assessment to develop a pain management treatment plan. The purpose of our clinic is to help your pain primarily through Interventional Pain Management Procedures.

We do recommend medication therapy to your primary care physician; it will be up to your physician's discretion whether or not to follow recommendations.

Directions to our clinic are also provided. Please see the map on the back.

Thank you for taking time to help us help you.

Sincerely,
 Scheduling Department
